

# SPIEL-BAU GOES GREEN

# GOES GREEN!

SUSTAINABILITY AND ECOLOGICAL RESPONSIBILITY

We made it our task to use our resources sensibly and to go new ways in order to do our part to protect and preserve flora and fauna.

## SUSTAINABILITY IN THE COMPANY

Due to the conscientious handling of the daily routine, we can process natural resources in an environmentally conscious way:

- *Use of solar energy and heat supply by heating with wood waste*
- *Conversion to e-mobility and planting of trees*
- *Production at one location to avoid additional transport routes*
- *Digitization of office processes and reduction of paper / print media*
- *Production with ecological materials and avoidance of plastic as raw material*
- *Environmentally friendly blasting of stainless steel with glass balls*
- *Reuse of packaging materials and glass balls*
- *Reduction of waste of HPL by use of modern CNC milling technology*

## OUR MATERIALS

Stainless steel:

- *100% recyclable*
- *Energy-saving production compared to PET or aluminum*
- *Durable, robust, weatherproof and rustproof*

Robinia wood:

- *PEFC certified from sustainable European forestry*
- *Resistance class I (DIN-EN 350-2), robust and weatherproof*
- *Processed with biodegradable glaze*

HPL (High Pressure Laminate):

- *Environmentally friendly made from recycled paper and glue*
- *Extremely shock, scratch and abrasion resistant*
- *Flame retardant and easy to clean*

Powder coatings:

- *No release of harmful substances*
- *High protection against impact and rust*
